## 1. 3IWRDD and ICOLD follow-up activities

### European Club of ICOLD, Workshop: "Dams: Incidents and Accidents"

The European Club of ICOLD, together with the Swedish National Committee of ICOLD, organized the **workshop "Dams: Incidents and Accidents - What can we learn?"**, held in **Stockholm (Sweden)** on **November 11-12, 2013**.

The workshop was a very good experience, with approximately **90 persons**, leading to a very active and open discussion. A detailed description of the Workshop presentations and final conclusions can be found in the Workshop [report](#), published by The International Journal on Hydropower & Dams, entitled "**Past incidents help to shape future dam safety strategies**".

### SPANCOLD, Technical Seminar: "Risk analysis applied to management of dam safety"

The Spanish National Committee on Large Dams (SPANCOLD) has organized the second edition of the Technical Seminar "**Risk analysis applied to management of dam safety**" that was held in **Madrid (Spain)** on **February 2014**.

This seminar included technical lectures on the application of risk analysis techniques to dam risk management, case examples, practical sessions (where attendees had the opportunity to use software tools for risk modelling and analysis), and a closing ceremony, conducted by Daniel Sanz Jiménez (Deputy Director of Water Public Domain at the Spanish Ministry of Agriculture, Food and Environment) and Jose Polimón (Chairman of SPANCOLD and ICOLD Vice-President).

The *third edition* of this seminar is expected in **September 2014**.
